

Incoming and outgoing inspection (f/m/d)

Sicoya is a technology leader in silicon photonics based interconnect solutions, located in the Berlin Adlershof Science City. We offer monolithically integrated semiconductor chips and transceivers for next generation data centers that are manufactured by CMOS foundries and Asian based contract manufacturers. The team consists of highly professional design engineers and managers with many years of experience in bringing state of the art products to the market.

We are looking for technically minded, problem solving and inquisitive Machine Operators to work in our new production line. You must be self-motivated and be able to work on your own initiative as well as a part of a team.

Job Responsibilities:

- Receiving inspections of raw materials and semi-finished components, incl. documentation of the results to the ERP system
- Implementation of first article tests
- Continuous quality monitoring and documentation
- Documentation of measurement series and error cause analysis
- Carrying out of visual inspections and documentation of inspection results
- Final product inspection and release for shipment
- Packaging of finished products
- Follow up of quality problems
- Maintenance of inventory records
- Documentation of the processing steps and enter into the computer-integrated manufacturing system (MES)
- Operating of measurement equipment (microscope and other tools)
- Identification/Definition of improvement opportunities

Your profile/Jobs Skills&Qualifications required:

- Technical education and working knowledge in the electronics or optics sector or equivalent qualification
- Experience in the statistical analysis of test results
- Pronounced visual perception and attention to detail and a high level of accuracy along
- You like working with the microscope
- Several years of experience in the quality control of a manufacturing company
- Methodical and independent working style
- Comfortable with MS Office (Excel in particular)
- Good English would be an asset
- High resilience, flexibility and reliability
- Quality-conscious acting
- Willingness to perform shift-work

We provide:

- High degree of personal responsibility within a flat company hierarchy
- Ambitious internationally expanding team
- Various future career opportunities for every career level
- a relaxed and inspiring working environment with lounge area, free drinks and fruits
- regular team events and team building measures
